

# Why CreateMyBB?

Why should you choose CreateMyBB? What makes CreateMyBB special?

Maybe it's the many features, or the great, top-notch support. Maybe it's because we're behind you 24/7, always there to help your forums succeed, with resources like CreateMyBB images where you can upload images for your forum – or for any other reason. It could even be the easy to remember subdomain you get – yoursite.createmybb.com. No hard-to-remember server names or directories. It's as easy as that!

Or maybe it's because we stay on top of our upgrades – we try and upgrade to the latest security upgrade, bug fix, or even major version as soon as possible. For the more minor upgrades, we perform them as soon as possible. But for the more major upgrades, we tell you about them, many weeks in advance. We let you know what's going on, we want you to know what's going on. We connect to our customers, not leave them in the dark.

We've already gotten many testimonials, saying how great CreateMyBB really is. We hope you too will choose CreateMyBB to host *your* forum.

## Key Features

- We stay on top of our upgrades
- We're with you the entire time, ready to support you when the time comes
- **We're completely free – no strings attached.** You don't have to pay anything, all that's required is our unobtrusive advertisements on your forum.
- We proudly provide **unlimited space and bandwidth** for both **your messages, members, themes, and more**, along with **any of your attachments** and other uploads.

## It's Completely Free!

CreateMyBB is completely free, and will *always* be free. We believe that MyBB should be free for everyone – including those who can't pay for a host that'll work for them. That's why we created CreateMyBB – to offer this great software to everyone, especially those who can't host it on their own. All we ask in return is an unobtrusive advertisement, one that you can remove for a small fee.

And don't worry about support either – we won't leave you in the dark! If you need some help, never hesitate to ask. You can contact our support team directly with our intuitive support ticket system, or get some help from both the community and us using our support forums. You can count on us – we'll be there for you.

Don't worry about using up too much space or bandwidth, either. We provide unlimited space and bandwidth for everything – uploads, posts, members – you name it, it's there.

## The One and Only MyBB

We're proud to host MyBulletinBoard forums, and only MyBB forums. MyBB allows unlimited customizability with tons of features. We're happy to say that we haven't removed any of these features – the template system and theme system is completely unedited, other than a few minor changes here and there to make it work for us as well as you.

We are also proud to currently be the only ones who host MyBB forums, absolutely free of charge. While there are many other forum hosts out there, only one hosts MyBB – CreateMyBB.

**We think it's easy to see why hundreds have already chosen CreateMyBB – and we hope you will too.**
